

Rogers Behavioral Health is a nationally recognized, not-for-profit provider of evidence-based mental health and addiction services.

Our Mission

We provide highly effective mental health and addiction treatment that helps people reach their full potential for health and well-being.

Our Vision

We envision a future where people have the tools to rise above the challenges of mental illness, addiction, and stigma to lead healthy lives. We bring this vision to life by constantly elevating the standard for behavioral healthcare, demonstrating our exceptional treatment outcomes, and acting with compassion and respect.

\$21.5 million
Community Benefit in 2019

Founded in 1907
by psychiatrist Dr.
Arthur Rogers

Treatment that works

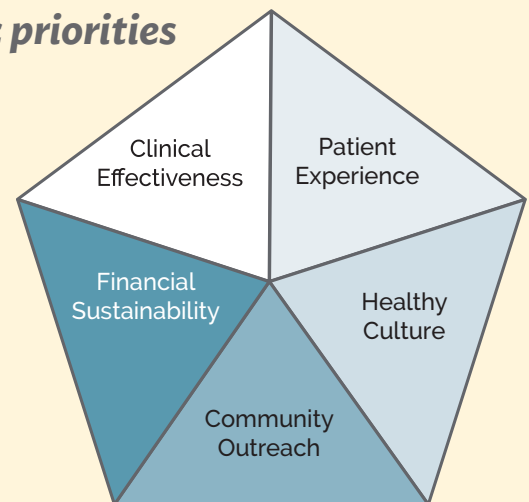

-  Saw improvement or maintained status
-  Saw worsening symptoms or not assessed

97% of patients across the Rogers system show improvement or no change from the start of treatment through the time of discharge according to the CGI score. CGI is the clinician-rated assessment of patient severity upon admission and assessment of improvement at the time of discharge.
